GROWN IN WASHINGTON

We operate our own Seedling Nurseries at Zillah and Sumner, Washington. Every operation, from seed selection to digging and grading, is directly under our supervision.

The soil and climatic conditions, at these Nurseries are ideal for the production of the finest of all American grown Fruit Tree stocks. These perfect conditions, combined with our many years experience, insure the superior quality essential to the production of fine trees.

All Fruit Tree stocks are accurately and carefully graded under our close supervision. You are assured of uniformly strong grades that please the most exacting growers.

For many years, America's finest Fruit Trees have been grown on Mount Arbor Stocks.

SHIPPED FROM SHENANDOAH

Shipments start early in January. All prices are for shipment from Shenandoah, subject to our usual terms.

We will have pool cars to several distributing points in the Central and Eastern States. Order now and take advantage of the low freight rates, which are available, if we are shipping a carload to a terminal near you.

While we have never guaranteed 100% delivery on early orders, we are proud of the fact that, for many years, we have delivered at least 95% of all the Seedling orders which we have accepted. Don't be disappointed—you may depend on Mount Arbor to deliver.

Send us your Want Lists. We can sometimes quote lower prices on large quantities.

"One of America's Foremost Nurseries"
